

Earth and Space Science

First Edition, ©2022

Hendrix/Thompson/Turk

9780357113622

Take Earth and Space Science instruction higher with the first ever high school program built with National Geographic content, images, and Explorers. Presents a rich overview of Earth and Space-related disciplines: exploring the physical attributes of planet Earth and its environment, emphasizing the human choices we have made, and discussing the physical consequences of those choices in the context of Earth systems. Address the Next Generation Science Standards to ensure your students meet current science skills and practices by integrating 3-Dimensional learning. Available digitally in the MindTap platform with interactive elements including videos, animations, and assessments.

Table of Contents

UNIT 1 - Introduction to Earth and Space Science

1. Nature of Science and Engineering
2. Earth Systems and Cycles

UNIT 2 - Earth Materials and Geologic Time

3. Minerals
4. The Rock Cycle
5. Geologic Time
6. Mineral and Energy Resources

UNIT 3 - Internal Processes

7. Plate Tectonics
8. Earthquakes and Earth's Structure
9. Volcanoes
10. Mountains
11. The Sea Floor

UNIT 4 - Surface Processes

12. Weathering, Erosion, and Deposition

13. Glaciers

14. Deserts

15. Soil Resources

UNIT 5 - The Hydrosphere

16. Fresh Water

17. Oceans and Coastlines

18. Water Resources

UNIT 6 - The Atmosphere

19. The Atmosphere

20. Energy Balance in the Atmosphere

21. Weather

22. Climate and Climate Change

UNIT 7 - Earth and Space

23. The Study of Space

24. Our Solar System

25. Stars

26. Galaxies and the Universe

Features

- Explorers at Work features profile the research and problem-solving work of National Geographic Explorers, each accompanied by an Explorer video in MindTap
- The MindTap online platform provides an interactive eBook with concept videos and animations, and digital assessments including performance tasks and data analysis activities with downloadable datasets
- Presents a rich overview of Earth and Space-related disciplines: exploring the physical attributes of planet Earth and its environment, emphasizing the human choices we have made, and discussing the physical consequences of those choices in the context of Earth systems

Technology CENGAGE | MINDTAP

MindTap is a cloud-based, highly personalized, learning environment that combines student learning tools—readings, multimedia, activities, and assessments—into a single Learning Path.

Teachers can easily customize learning tools for their students, seamlessly introducing their own content, and also have access to powerful class reports and analytics to help save time, measure progress, and improve outcomes.
